

Graduate / Junior Developer

We're an ambitious property insights business investing in our future. Our goal is to revolutionise how property information is shared and experienced, to enable our customers to make better decisions. 100% New Zealand owned, QV is focused on its customers and they're at the heart of what we do. As a State-Owned Enterprise, we're proud to help our local communities.

Our people are vital to our success. That's why we're proud to offer flexible working arrangements, enabling people to fit work around their busy life schedule. Offering a competitive remuneration package and professional development, supporting our people to reach their full potential.

PURPOSE OF THE ROLE

As a Developer at QV, you will be working in a team responsible for maintaining our existing suite of software and building our future capabilities in support of QV's core business technology systems.

WHO YOU REPORT TO

You will report to the Development Manager in our Technology team.

WHAT YOU'RE RESPONSIBLE FOR

- Undertake projects or activities as required by the business
- Write maintainable and well-factored code, following best practices and in accordance with QV's coding standards
- Write Unit Tests as appropriate
- Assist with manual testing
- Write technical documentation for systems you develop or work on, as required
- Participate in Scrum ceremonies
- Assist with incident management and support
- Follow company practices, policies and procedures, which may change from time to time
- Comply with QV Group Health and Safety Policy at all times and actively contributes as an individual at team and local levels
- Any other activities reasonably requested and within your skillset
